Additional Tools, Resources, and Data Sources

TOOLS AND DATA SOURCES

Population-based surveys
- Census
- Labor force surveys
- Demographic and health surveys

Administrative records
- Paper-based (civil service payrolls; registries of training institutions, professional associations, and regulatory bodies)
- Electronic (iHRIS suite – iHRIS Qualify, iHRIS Manage, iHRIS Plan)

Health facility assessments
- WHO Service Availability and Readiness Assessment (formerly the Service Availability Mapping Tool)
- JICA Health Facility Census Tool
- MEASURE DHS Service Provision Assessments
- MEASURE Facility Audit of Service Quality
- Rapid HFAs (CSTS+/MEASURE)

Systems assessments and special studies
- WHO HRH Assessment Guide
- CapacityPlus HRM Rapid Assessment Tool (to be published)
- PHRplus HRH Assessment (component of Health Systems 20/20 / PHRplus Health Systems Assessment Approach)
- CapacityPlus DCE Rapid Assessment Tool

TOOLKITS
- K4Health’s Monitoring & Evaluation Toolkit

ARTICLES

General M&E of HRH
Examples of using HRH data in research

**ONLINE COURSES**

**Program M&E**

- USAID Global Health eLearning Center: M&E Fundamentals
- UNICEF: M&E Training Modules – covers planning and design and data collection, analysis, and dissemination
- USAID Global Health eLearning Center: M&E Frameworks for HIV/AIDS Programs
- Johns Hopkins Bloomberg School of Public Health OpenCourseWare: Fundamentals of Program Evaluation

**Data quality and use**

- USAID Global Health eLearning Center: Data Quality
- Global Fund to Fight AIDS, Tuberculosis and Malaria: Data Quality
- MEASURE Evaluation: Data Demand and Use
- USAID Global Health eLearning Center: Data Use for Program Managers

**Research methods**

- MEASURE Evaluation: Fundamentals of Implementation Research
• Johns Hopkins Bloomberg School of Public Health OpenCourseWare: Introduction to Biostatistics, Methods in Biostatistics I, and Methods in Biostatistics II
• Johns Hopkins Bloomberg School of Public Health OpenCourseWare: Statistical Reasoning I and Statistical Reasoning II
• Johns Hopkins Bloomberg School of Public Health OpenCourseWare: Qualitative Data Analysis
• Johns Hopkins Bloomberg School of Public Health OpenCourseWare: Issues in Survey Research Design
• Johns Hopkins Bloomberg School of Public Health OpenCourseWare: Introduction to Demographic Methods
• MEASURE Evaluation: Geographic Approaches to Global Health
• USAID Global Health eLearning Center: Economic Evaluation Basics
