

## Introducing the HRH Global Resource Center

<http://www.hrhresourcecenter.org>

The HRH Global Resource Center, a service of Capacity*Plus* led by IntraHealth International, Inc., is a free online library that provides access to a large collection of human resources for health items and offers personalized librarian support to help you find information.

The GRC posts regular News articles on important upcoming HRH happenings, Resource Spotlights providing an in depth look at new additions to the collection, and HRH Leaders in Action interviews, an interview series with HRH champions in developing countries. The GRC also sends out a monthly newsletter that provides information on the latest resources, improvements and news from the GRC. The HRH Global Resource Center collection is composed primarily of hyperlinks to articles and other resources written by organizations and professionals across the globe that study and work in the field of human resources for health. The GRC resources are websites, journal articles, program and project reports, conference reports, tools and training documents.

We classify resources by their subject, geographic focus and type of media. You can browse the collection by any of these categories, or you can use the search tool to find resources by keyword. There is also an advanced search that provides additional options for refining your search. For an introduction to fundamental HRH topics, you may want to start by reading a Subject Guide. These guides provide information, links to resources on the topic in the collection, and recommendations for further reading. The icons at the top of each resource, interview, subject guide, and news article allow you to bookmark, print, or share all GRC materials via email, Facebook, Twitter or through your choice of more than 300 social media bookmarking sites.

Should you desire assistance beyond what is covered in the remaining modules, please do not hesitate to contact the HRH Global Resource Center team via the Contact Us page. Here you can make suggestions about how we can make it a better resource, request help from a librarian in finding resources, or submit a resource suggestion. From this page, you can also fill out a User Survey to let the GRC team know about your experiences using the site.

### Summary

HRH Global Resource Center

<http://www.hrhresourcecenter.org>

A free online library providing access to a large collection of human resources for health resources with resource spotlights, news articles, HRH Leaders in Action interviews, and a monthly newsletter.
